PROFESSIONAL EXPERIENCES

Web Developer

Your Best Dev | Abril 2024 – A la fecha.

- I developed a web page for the creation of signatures to be included in emails, using HTML, CSS and JavaScript. In addition to working with the Mobile First technique.
- Landing Page development for the agency using the Next.js Framework, in addition to HTML, CSS, JavaScript technologies. Responsive design was also implemented in the solution, as well as good practices for the SEO of the page. Also, I made the transfer of the domain and hosting of the previous site.
- I improved my soft skills through the development of different feedback meetings with stakeholders, generating a good working environment.

Web Developer

28Siete Agency | June 2023 – January 2024.

- I was part of the development of a web system focused on the management of business processes of a hardware store, developing modules such as: warehouse management, billing, customer management, accounting, cash management.
- I used the Next.js Framework, as well as other technologies such as Tailwind, TypeScript, Strapi and API REST. On the other hand, I used the version manager Git, as well as GitHub where I improved the specification of Commits.
- I improved my team skills, through teamwork with different repositories, in addition to the different meetings with the development team and likewise, the meetings developed with the client.

COMPLEMENTARY EXPERIENCES

- First place certificate in the event “HACKATHON – DESARROLLO WEB CON INTELIGENCIA ARTIFICIAL UCV”.
- Certificate of Recognition of Commitment to Innovation and Technology - 2024.
- Certificate in the event “Expowork 2023-1”.
